ABUBAKAR ISLAM

Software Engineer

✉ abubakarislam281@gmail.com ◆ linkedin.com/in/abubakarislam ◆ Rahim Yar Khan, Punjab, Pakistan

SUMMARY

Software Engineer with 5+ years of experience designing and shipping scalable web applications end to end, strong across the stack: React, Next.js and TypeScript on the frontend, Node.js/Express and Laravel on the backend, with MongoDB and MySQL underneath and cross-platform mobile apps in React Native. Spent the last several years working remotely with product teams in Denmark and Spain, building booking platforms, learning-management systems and digital productivity tools used by real customers. Comfortable owning features from database design to deployment, and known for writing clean, maintainable code that holds up in production.

EXPERIENCE

Software Engineer (Full Stack)

Aug 2024 – Present

DanZee Tech

Aarhus, Denmark (Remote)

- Build and maintain full-stack web applications with Next.js, TypeScript, Node.js/Express and MongoDB, plus Laravel REST APIs with Vue.js admin panels.
- Ship multi-domain platforms, booking systems and digital management tools, owning database design, API architecture and deployment.
- Implement secure authentication, role-based access control and subscription billing with third-party payment gateway integrations.
- Deploy on Vercel and VPS with GitHub-driven CI/CD, keeping a sharp eye on performance, uptime and clean architecture.

MERN Stack Developer

Jan 2023 – 2024

Tututor AI

Barcelona, Spain (Remote, Part-time)

- Built a full-featured learning management platform for schools, teachers, parents and students on the MERN stack.
- Developed responsive role-based dashboards in React with Redux, and scalable REST APIs backed by MongoDB.
- Added secure authentication and real-time communication features; optimized for speed and a mobile-friendly experience.

Full Stack Developer

Aug 2021 – 2022

DanZee Tech

Aarhus, Denmark (Remote)

- Developed end-to-end web applications across React, Node.js/Express and Laravel (including Blade views).
- Built authentication systems, admin dashboards and REST APIs with clean, well-tested architecture.
- Contributed to Yaksport (sports booking), EventButler (event management) and Minders (health app).

PROJECTS

Yaksport: Multi-Region Sports Travel Platform

Next.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS

- Multi-domain booking system for hotels, flights and lead generation across 6 regional domains.
- Digital contract-signing workflows and real-time data handling; built for scale, security and high availability.

Evarto: Nordic Venue Booking Platform

Next.js, TypeScript, Node.js, MongoDB, Tailwind CSS

- Venue management for hotels and restaurants with subscription billing and payment integrations.
- Scaled the platform from Denmark (950+ venues) into Sweden, growing traffic and revenue significantly.

JURII: All-in-One Digital Management Platform

Next.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS

- Productivity suite combining an email client, cloud drive and password manager with end-to-end encryption.
- Designed the API backend for speed, privacy and long-term maintainability.

Minder: Learning Management Application

React.js, Redux, Node.js, Express.js, MongoDB

- React admin panel for managing courses, content and learner progress with validated, structured workflows.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Aug 2019 – Jul 2023

Khwaja Fareed University of Engineering & IT (KFUEIT), Rahim Yar Khan

SKILLS

JavaScript | **TypeScript** | **React.js** | **React Native** | **Next.js** | **Redux** | **RTK Query** | **Vue.js** | **Node.js** | **Express.js** | **Laravel** | **PHP** | **REST APIs** | **MongoDB** | **MySQL** | **Tailwind CSS** | **HTML5** | **CSS3** | **Git / GitHub** | **Vercel** | **VPS Deployment** | **CI/CD** | **Payment Gateways** | **Postman** | **Figma-to-Code**

ACHIEVEMENTS & CERTIFICATIONS

- Hardworking Employee of the Year (2024), DanZee Tech
- Employee of the Month (2023) for consistent performance, leadership and team contribution
- Top Performer Award, NAVTTC, for outstanding technical skills and project delivery
- NAVTTC Certifications: Web Application Development, Desktop Development
- Languages: English (Professional), Urdu, Hindi
